

Great Equipment Brings Great Results. 744HW-CT

Counter Top Dry Well (no water
required) - Well Depth 6"

0

EXTERIOR HEIGTH

Model 744HW-CT (counter top / dry well) is the perfect complement to Thermodyne's other hot well models which feature our patented cook, hold, and rethermalizing cabinet beneath the wells. This compact counter top design allows users to double or triple their hot well capacity, when kitchen floor space is limited. The model 744HW-CT (counter top / dry well) means NO water is required to provide heat in the wells. Not having to use water allows for easier clean up at the end of the day. Additionally, each well has individual temperature controls enabling the user to hold foods at different temperatures across the wells.

wells. Not having to us the end of the day. A temperature controls e different temperatures a	se water allows for eadditionally, each wel	asier clean up a l has individua	at lal Thermodyne
